Overview:

Providing transit services in a safe, secure, and customer-oriented manner demands that bus and van operators (drivers) are well trained and knowledgeable about the equipment they operate, the conditions under which they drive, and the passengers they serve.

The National Rural Transit Assistance Program developed **START** (Safety Training and Rural Transit) as a training tool to help guide operators in these three very important areas of knowledge and skill.

This course will provide a guide for trainers on how to effectively use the **START** materials when training transit drivers. The three modules that will be taught include:

- Vehicle Safety
- Driver Safety
- Passenger Safety

Course Objective:

By the end of this course, learners should be able to:

- conduct a pre-trip inspection to ensure that their vehicle does not have an obvious safety deficiency
- operate the vehicle using industry best-practices in safety and security
- safely load and unload ambulatory and non-ambulatory passengers
- utilize industry best-practices for managing on-board incidents

Who should attend:

Driver trainers, bus/paratransit operator trainers, safety managers, safety supervisors, and training managers.

Fees:

There are no fees to attend this course for current employees of a Florida public transit agency and who meet criteria identified in the [Transit Training Policies and Procedures](#).
